DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3,5,7-13,15-17, 19 and 20 are allowed.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art of record is International Publication No. WO 00/48098 to Carden.
4. Carden discloses a system and method for enabling authors to submit written materials to a publisher, through the Internet, for immediate review, editing and publishing. Carden's system allows only the author or co-authors to edit the written material. However, Carden taken either individually or in combination with other prior art of record fails to teach or suggest a remote service provider for remote electronic editing of the authored work for content such that a galley is created from the authored work as recited in independent claims 1, 12 and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
 - "From the Web to the page" by Nawotka discusses the trend of Internet book publishing by Internet magazines such as Salon.com and Nerve.com

Art Unit: 3621

- “Editing a Web Site: Extending the Levels of Edit” by Anderson et al. discusses “how technical editors can prepare themselves by adapting the Levels of Edit concept, long used in the technical editing of books, articles, and reports, to deal with the different requirement of this new medium.”
- US Publication No. 2003/0080999 to Stone et al. discloses a method of using a network of computer to facilitate and control the publishing of presentations to a plurality of print media venues.
